Great news! The major overhaul of the Nude continues. After a successful Pilot at the gallery flat and two porch flats in the Savornin Lohman we continue with the rest of the neighborhood. In this newsletter we tell you what the schedule looks like. You can read more about 'Gas- less De Nude', a beautiful poem by a resident and the recordings for the energy labels.

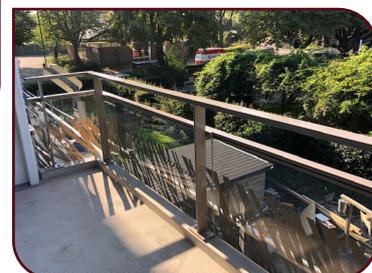

First phasse completed

The refurbished flats look beautiful. The new entrances have also been installed, the video-phoneinstallations are installed and all the mail-boxes have been replaced. With this the first phase of the major maintenance is completed. In the pictures below you will find the beautiful results and this is how the rest of the neighborhood will look like. We want to thank all residents of the flats again for their cooperation and flexibility. We hope in the next phase we get the same results and have a good collaboration contact with the residents.

Schedule

The residents of the three flats where we will start after the building trade already received our invitation for a corona proof walkthrough moment. They also recieved the plans for their flats This contains all the information that is important to know before deciding to agree or not agree on running the major maintenance. program. When 70% of the residents agree with the plans, we will start with the rest of this project. On the last pages of this newsletter you will find the planning and routing of the major overhaul.

Gas-less de Nude

As a district of the Future, it is logical that we want to get rid of the gas connection as much as possible. Therefore the residents of the entire Nude, with exception for the Pilot residents, get a voucher from Expert. This is a € 90.00 coupon that they can spend when buying a hob. Residents will soon receive a letter from the municipality about this voucher.

Withdrawals energy labels

Atrienis will start admitting your house. This is necessary to obtain the energy rating of your home. Soon you will receive a letter from Atrienis about this, which exactly states how this works. Atrienis is the company that does this for us. They will contact you for an appointment about the withdrawals. This is not the contractor, and he also does not know about the construction work.

Poem of Lieselotte de Witte

Ripples
I touch you and
So share in your existence
See you through my eyes
But rather cherish
Through the skin

This silent staring
Ironing through your hair
The corona has tarnished a lot
So I touch you through my eyes and ears

Sound and Vision

Make ripples around us
That way you are tangible
And not alone anymore

Lieselotte de Witte

This poem comes from the collection Letterspel about relationships, being human, nature and current events. It is for sale at Vreemde streken and in the Wijkcentrum de Nude. Coming home, about religious experience, is also a bundle for sale there. A bundle costs Euro 9.50. The profits go to Brooke Hospital for Animals, a foundation that provides medical care to workers in Afghanistan and among others.
